The School of Health Professions Center for Community Engagement and Leadership Development proudly presents:

LIVES LIVED AND LESSONS LEARNED:
A panel discussion on disability during the COVID-19 pandemic

Wednesday, April 20, 2022
12:00 - 1:30 PM

No one was spared from the ravages of the COVID-19 pandemic, however people with disabilities were disproportionately affected by it. As a society and as researchers, we are still uncovering all the ways in which this disproportionality has taken place. In a panel discussion, we will discuss the unique and acute challenges that people with disabilities faced during the Covid-19 pandemic.
