

INNOVATIONS IN TECHNOLOGY

AT EMPOWER SPINAL CORD INJURY

The Technology that Make a Difference

Empower Spinal Cord Injury (SCI) is a non-profit corporation that focuses on residential rehabilitation to provide the knowledge, tools, support and strength that an individual with a spinal cord injury needs to live a happy, independent, and meaningful life.

For individuals with spinal cord injuries, technological advancements continually evolve that help to improve lives and make independence a possibility. At our Innovations in Technology Expo at Stony Brook University we will be presenting the latest

technologies that can better the lives of individuals with spinal cord injuries. Attending is free of charge, and open to Empower SCI participants, volunteers, clinical specialists, and community members interested in learning more!

Where: Stony Brook University, NY

When: Tuesday July 25, 2023
1-5pm
