CASTLEBRANCH

Teresa Ann Blaskopf, Admissions and Student Affairs Administrator

Incoming Students

- 1. You will need to complete the four page Health History Examination Form
- 2. Once the form is completed the student would submit on the Wolfie Portal which is "Wolfie Portal".
- 3. This should be completed before the start of Orientation in June.

Documents Required for the University

To ensure a healthy and safe campus community, if you plan to enroll in at least one in-person class, live on campus, or access in-person services or facilities on Stony Brook's campuses, you are required to comply with mandatory immunization requirements. Evidence of MMR immunity includes any of the following as long as the first dose is administered on or after the first birthday and the second dose is administered at least 28 days after the first dose:

TWO DOSES of MEASLES/MUMPS/RUBELLA (MMR) VACCINE

TWO DOSES of MEASLES VACCINE, ONE DOSE OF MUMPS VACCINE AND ONE DOSE OF RUBELLA VACCINE

TWO DOSES OF MEASLES, MUMPS, RUBELLA, VARICELLA (MMRV) VACCINE

In lieu of (not in addition to) an acceptable combination of vaccines above, a positive blood test (a quantitative titer only) showing protective antibodies to measles (rubella), mumps and rubella is acceptable to prove immunity. A copy of the official lab report must be provided.

For Clinical Rotations

For students to participate in clinical rotations, it is the students' responsibility to have all required documents uploaded to CastleBranch® and to check that they are in compliance with their individual program requirements before attending any clinical rotation. Any student out of compliance will not be allowed to attend any clinical activities.

Making an Account on CastleBranch

CastleBranch

- 1. Once you are at the CastleBranch website, click Place Order.
- 2. Then click "Please Select (It is a drop-down menu. Click your specific program.)"
- 3. You will see 4 items to choose from.
 - a. If you need a Background Check, Drug Test, and Health Compliance, as instructed by your program, you can click the first Tracker.
 - b. If you only need the Health Compliance, then click the last Tracker.
 - c. You can do the Background Tracker and Drug Test Tracker separately if instructed, by your program.

Prices for CastleBranch

- a. Health Compliance \$43
- b. Background Check \$140
- c. Drug Screening \$40

Questions

Dean's Advisory Board

The Student Advisory Committee to the Dean is composed of one student from each class of the SHP professional programs (one from the first year, one from the second year, and, if relevant, one from the third year classes), representatives from each section in the Health Science program, Stacy Jaffee Gropack, and Associate and Assistant Deans. Each class should elect its representative as soon as possible after the beginning of classes for the new academic year. The Dean's Advisory Committee meets regularly, usually once a month, according to a schedule chosen by the members. It may meet more often as required by student needs.

Welcome to the Stony Brook University School of Health Professions

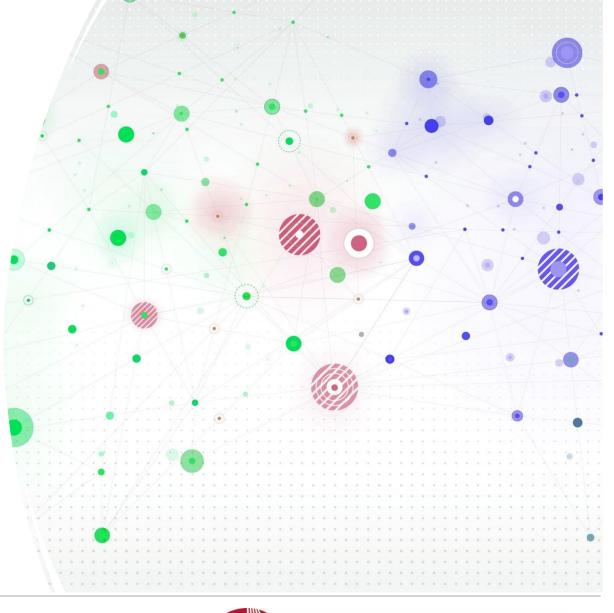

What is IPE?

Interprofessional education: "When students from two or more professions learn about, from and with each other to enable effective collaboration and improve health outcomes." (WHO 2010)

Interprofessional Education (IPE)

 IPE has been recognized by the World Health Organization (WHO) as a necessary step in preparing a "collaborative practice-ready" health workforce.

Interprofessional Collaborative Practice (ICP)

 Collaborative practice happens when multiple health workers from different professional backgrounds work together with patients, client's families, caretakers and communities to deliver the highest quality of care.

Interprofessional Collaboration Patient-**Improved** Centered Quality Care Outcomes Interprofessional **Education and Practice** Integrated Wellness & Services & Prevention Coordinated Care

Collaborative Practice

Can improve:

- Access to and coordination with health services
- Appropriate use of specialists
- Outcomes for those with chronic diseases
- Patient care and safety

Can decrease:

- Total patient complications
- Length of stay
- Tension and conflict among caregivers
- Staff turnover
- Hospital admission
- Mortality rates

Core competencies for Interprofessional Collaborative Practice (IPEC expert panel, 2011)

Values and ethics

 Work with individuals of other professions to maintain a climate of mutual respect and shared values

Roles and responsibilities

 Use the knowledge of one's own role and those of other professions to appropriately assess and address the healthcare needs of the patients and populations served

Interprofessional communication

 Communicate with patients, families, communities, and other health professionals in a responsive and responsible manner that supports a team approach to the maintenance of health and the treatment of disease.

Teams and teamwork

 Apply relationship-building values and the principles of team dynamics to perform effectively in different team roles to plan and deliver patient/population-centered care that is safe, timely, efficient, effective, and equitable.

In 2016, IPEC updated Core Competencies

Developed shared taxonomy among the health professions to facilitate: Better achievement of the *Triple Aim* with an emphasis on population health.

- 1. Improve the patient experience of care
- 2. Improve the health of populations
- 3. Reduce the per capita cost of health care
