# Federal Direct Unsubsidized Loan

- Unsubsidized loans are non-need-based loans and are available regardless of financial need. The student must be enrolled in a degree program with six or more credits and have a valid FAFSA on file to be eligible.
- Graduate students may be eligible for up to \$20,500 during the academic year, depending on their cost of attendance budget
- First-time borrowers will be required to complete a Master Promissory Note and Entrance Counseling before loan funds can be disbursed.
- The federal government does NOT pay the interest. Interest begins to accrue as soon as the loan funds are disbursed. Students may choose to pay the interest that accumulates, or have it capitalized – meaning, the interest will be added to the principal amount of your loan, and additional interest will be based upon the higher amount. Paying the interest as it accumulates will reduce the amount of interest that must be repaid.
- Repayment begins 6 months after you graduate or are no longer enrolled for 6 or more credits. Payments are made directly to your loan servicer.

# Graduate PLUS Loan

- Graduate PLUS loans are available to eligible graduate and professional students up to the cost of attendance minus other financial assistance offered each academic year. To be eligible, you must be enrolled in 6 or more matriculated credits, with a valid FAFSA on file, and not have an adverse credit history.
- First-time borrowers will be required to complete a Master Promissory Note and Entrance Counseling before loan funds can be disbursed.
- If a Grad PLUS is denied, the borrower will receive notification from the federal government as to the credit decision. The borrower has the option to re-apply with a credit-worthy endorser.
- Interest begins accruing once the loan is disbursed. Borrowers may choose to repay the interest monthly, quarterly, or have the interest capitalized. Repayment of the principal balance plus interest begins 60 days after the loan has been disbursed. However, the borrower can defer payments while they are enrolled at least half-time (six credits) by contacting the loan servicer.

# Private Educational Loan

- Students can apply for private loans, which are available if they need additional loan funding after considering federal loan options.
  - This is offered by a private lending institution and is based upon credit.
  - This is in the student's name and the student may need a co-signer to apply.
- You have the freedom to select a lender and the application process is handled directly with the lender you choose.
- If you need help selecting a lender, you may refer to our [Private Educational Loan Lender List](#).
- Private loans may also be available to students enrolled less than part-time or in a non-degree program.
  - Please make sure to review the enrollment criteria before applying for a private loan.
  - If approved, the loan funds will be sent directly to the university.

# Other Options

The following are available options to 'fill the gap' between your college expenses and your financial aid awards:

- You may pay the balance due in full each term. Payments can be made by credit card, debit card, or check. To make a payment with a credit card, log in to the SOLAR System and click on “Account Summary/What Do I Owe?”. Additional billing/payment information is available on the Student Financial Services website.
- You may pay the balance due in installments by signing up for the University's Time Option Payment Plan (TOPP).
  - Due to the brief length of the Summer and Winter terms, the Time Option Payment Plan is not available during these semesters.
  - The Time Option Payment Plan (TOPP) is a semester-based program. As such, you are required to enroll in the program each semester you would like to participate. Since the plan is not a loan, there are no interest or finance charges. You pay a \$50.00 non-refundable application fee which is included in your first payment.
  - Enrollment in the TOPP program must be completed online through SOLAR under “Campus Financial Services.” **In order for your enrollment in the plan to be effective, you must make your first payment at the time of enrollment.**
  - In order to be eligible to participate in the TOPP program, any remaining prior semester balances must be paid in full.
  - Enrollment in the program will allow for your payments to be distributed equally over three or four months, depending on when you enroll.

# Dean's Advisory Board

*The **Student Advisory Committee to the Dean** is composed of one student from each class of the SHP professional programs (one from the first year, one from the second year, and, if relevant, one from the third year classes), representatives from each section in the Health Science program, Stacy Jaffee Gropack, and Associate and Assistant Deans. Each class should elect its representative as soon as possible after the beginning of classes for the new academic year. The Dean's Advisory Committee meets regularly, usually once a month, according to a schedule chosen by the members. It may meet more often as required by student needs.*
